

ROCKY MOUNTAINEER RAILTOURS

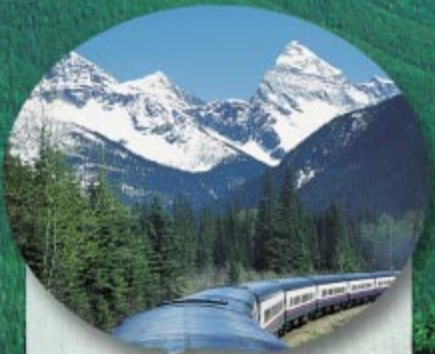

"The Most Spectacular Train Trip in the World."
It was created over a century ago. A road of steel which opened up the Canadian West was hewn by hand, through some of the most rugged terrain in the world. Today, this same historical route is recognized as one of the world's

classic journeys. This is the land of legend, still wild and unspoiled, still home to abundant wildlife. This is a land of majestic snowy peaks, glittering gla-

cial lakes, roaring waterfalls and towering trees. Make this the year you experience the adventure and scenic wonders of the Canadian Rockies and Canada's West up close, all in daylight with

ROCKY MOUNTAINEER RAILTOURS.
